Recommendation / Chatsworth Fine Homes

On behalf of my wife Jann and I, we would like to provide a unequivocal endorsement for Fil and his team at Chatsworth Fine Homes.

Our project was particularly complex with tight access requirements and strict timelines as the extensive work was scheduled around a family wedding being hosted at the home. Fil and his Team worked with our designer to ensure our vision was brought to life...on time and on budget.

The workmanship on the build was exceptional. The tradesmen on the Chatsworth team are skilled, professional, flexible and cooperative. Our Site Supervisor Paul was always very responsive to our inquiries and was there to ensure exceptional quality control.

One of the challenges Fil and the team were faced with was the foundation. The underlying soils were found to be unsuitable which forced a work-a-round plan to be adopted and a change in the foundation was required due to our site conditions. The team worked quickly along with the Architect and the Engineer to create a cost-effective solution and kept the project moving forward.

The financial reports were always provided on a timely basis which allowed us to see how the funds were being allocated and provided us the assurance that costs were being wisely managed and tracked to budget.

We would highly recommend the Chatsworth team to anyone looking for a great builder!

Sincerely,

Jann and Stephen Wetmore
